State Insane and Idiotic Asylum.

DRS. HAWTHORNE & LORYEA,

PHYSICIANS & PROPRIETORS.

IN PURSUANCE OF A LAW PASSED BY THE present Legislative Assembly, the Oregon State Insane and Idiotic Asylum is located in East Portland, in this county, Drs. Hawthorne & Loryea, Physicians and Proprietors.

The Proprietors of the above Establishment will immediately make additions to their present buildings, in order to offer accommodations to all who are unfortunate enough to need the care and treatment of an Insane or Idiotic Asylum.

It is specially requested on the part of County Judges, guardians and friends of this class of patients, to have them immediately conveyed to the Asylum, so that they may be properly cared for before the inclement weather sets in.

THE INDIGENT WILL BE SUPPORTED AT THE EXPENSE OF THE STATE, and no record of debt made against them. For further particulars apply to DRS. HAWTHORNE & LORYEA, Physicians of the Oregon State Insane & Idiotic Asylum. Portland, Multnomah county, Oct. 10, 1864.

WILCOX & GIBBS SEWING MACHINE.

We would call attention to the following facts in connection with this Machine, which renders it superior to any other in use:

It forms a flat-elastic seam which *will not rip in wear;*

It is entirely noiseless;

A patented device prevents its being turned backward;

The needle cannot be set wrong;

Can be used successfully without other instructions than accompany the Machine;

It received the Gold Medal of the American Institute in 1858. For particulars, enquire of

Portland, February 3d, 1865. d1f

A TRIP THROUGH JOSEPHINE COUNTY.—As the editor of the *Sentinel* has been traveling through Josephine, we are able to extract from his columns some interesting particulars of that portion of Oregon:

ILLINOIS VALLEY.

Crossing a low divide, we entered Illinois valley. This valley, with its alternate skirts of timber and prairie, its numerous little coves at the base of the rugged, heavy timbered mountains, which surround it, coupled with the history of Indian massacres and Indian depredations, would furnish an endless fund of fiction for the novelist. The land, as a general thing, does not seem to be so rich as that in Jackson county. We should judge however, that the facilities for irrigation are much better.

KERBYVILLE.

We arrived at Kerbyville at five o'clock. We were glad enough, too, to vacate our seat in the stage, for one more comfortable in the bar room of th Sawyer Hotel. This place, although quite small, has, for the most part, very substantial and permanent buildings. It contains two or three stores, two hotels, two livery stables, and one large billiard saloon. There is also a large flouring mill hard by, in full sight of the town.

ALTHOUSE.

On Tuesday morning we hired a horse and went out to visit these famous diggings. Falling in by the way with Mr. Wm. M. Evans, we placed ourself under his guidance to Browntown, the metropolis of Althouse diggings. Althouse creek is a deep mountain gorge, with not enough room all along the banks for a road. This creek has been one of the richest creeks in the northern mines, (O. S.) but unless the hill diggings and quartz prove to be rich, which we have no doubt will be the case, Althouse will be turned over to the Chinamen.

For the last five or six miles before arriving at Browntown, we traveled over a substantial wagon road, which has been cut around the sides of the mountains at great expense.

BROWNTOWN.

On arriving at the brow of the mountain, looking almost under our feet, we got the first sight of Browntown. Its site being the only location on the creek large and level enough to build a city on. It is built on a small bar, covering, perhaps, one or two acres of tolerably level land. Browntown, however, has fallen into decay, presenting at present a dilapidated and ancient appearance. It contains two stores and a hotel.

DEMOCRAT TUNNEL.

On Wednesday morning, although extremely cold, Mr. Evans kindly agreed to accompany us to the various places of mining iterest in the vicinity of Althouse. Our first visit was to the Democrat Tunnel, which affords a fine specimen of the enterprise and energy of our miners. This tunnel was commenced some two years ago, by four experienced miners, who, by their own labor alone, have bored through the mountain some 1,200 hundred feet, and have struck the bar on the other side, 35 feet below bedrock. The object of this tunnel is to drain a portion of Althouse creek, which has hitherto not been worked for the want of drainage. The valley being 100 feet lower than the bed of the creek, and separated from it by a low ridge of mountains, which run parallel with and between the valley and creek. This gives this company some 75 feet fall from the mouth of their tunnel down to the valley. These gentlemen have just completed their flume, turned the water through the tunnel and commenced the operation of cutting across the flat in search of the channel. The creek thus drained is known to be rich, but all previous attemps to work it have proved unsuccessful.

HEILNER MINE.

We next paid a visit to the mill and mine belonging to S. A. Heilner, Esquire, located near Democrat Gulch. This lode is situated on the mountain, about one and a half miles from the the mill, having an excellent wagon road constructed between the two points. Several tunnels have been run into this lode at different debths, finding the vein rich at every point struck. Mr. Heilner has lately run a new tunnel of 850 feet into the mountain, from the terminus of which he is running a perpendicular shaft to connect with one which was sunk on the vein above. This shaft is already raised 70 feet, and yet lacks some 15 feet of being to the bottom of the one above. At the suggestion of Mr. Heilner, we, in company with our friend Evans, each bearing a candle in his hand, commenced the ascent of the shaft, not knowing the magnitude of the undertaking, but supposing that a few feet would bring us to the top. Our ascent was by means of a ladder on the side of the shaft. Water came down like a torrent of rain; a strong draft of wind met us, which was caused by an air pipe that was constructed the entire length of the tunnel and up the side of the shaft. By means of water and wind our candles were extinguished before we had proceeded ten feet, and we were left in the most profound darkness, not knowing how far we had to go before reaching the top. Believing, however, that everything must have an end, we pushed on step by step, our grasp growing firmer as it caught each successive round of the ladder. Ominous thoughts passed through our minds for the safety of our friend, Evans—whom we could hear just behind us—should the ladder give way and precipitate us on his head. But at length a light gleamed from above, and looking up, we saw Mr. Heilner holding a candle for us. Right glad were we to put our feet on the little bench, used by the workmen, on the side of the shaft, which was barely large enough to hold four of us, we were compelled to take lodging there. Taking a few breaths, we cast a longing glance down the frightful hole, which we were enabled to see by means of a candle set at the bottom. But the worst was yet to come—we must go down. By a desperate effort we let ourself over the side and commenced our exit, and were soon safely at the bottom, feeling satisfied with our adventure and fully determined not to try it again. Taking a seat in the tunnel car, Mr. Evans and myself were whirled out at break-neck speed to the mouth of the tunnel.

From the tunnel from which they are at present taking quartz, a shaft has been sunk down on the lode sixty feet, finding the quartz rich all the way. From the various openings into this mine, a vast amount of rich ore is already in sight. Notwithstanding the great amount of money spent by Mr. Heilner on this mine, there is no doubt that he will soon realize a handsome profit. He intends next summer to erect machinery of the most improved style.

A singular phenomenon appears in the tunnel from which they are taking quartz at the present time. It is a crack or fissure in the rock, crossing the vein at almost perpendicular angles. It averages about ten inches in width. The surface of its sides being parallel, show that the rock was originally connected, and by some means separated. From all appearances it is very extensive. The water in it rises and falls with the water in the shaft which has been sunk on the vein. No doubt this opening is one of those reservoirs which supply intermittent springs, by filling up in the winter and drying out in the early part of the summer.

SAILOR DIGGINGS.

Waldo is the largest town in Josephine county. Here, as elsewhere in the county, complaints of dull times are heard. Great hopes are entertained that the coming summer will prove a new era in the affairs of Josephine county, from the wonderful deposits of copper which have been discovered there. Waldo, especially, will be benefitted by the coppermines, the Queen of Bronze vein being located in its immediate vicinity, on which extensive works will be constructed next summer.

Before leaving Sailor Diggings, we visited Mr. Weston's expensive hydraulic apparatus, on Allen's Gulch. This is the most powerful hydraulic in Oregon, the water being forced through an inch and a quarter pipe, under a pressure of 240 feet. The water is conducted down the mountain through an iron pipe, connected at the lower end with a pipe of three or four thicknesses of ducking, and this closely wrapped with half inch rope. The power of such a pressure is truly surprising—two men easily doing the work of 20 by any other process.

MINING INTEREST OF JOSEPHINE.

Although times appear dull at present, there is a bright future for its mining interest. During the coming summer there will be a large amount of capital expended on the Queen of Bronze copper mine. This, in connection with the money expended on the Heilner mine, will give a new impulse to all kinds of business.

There are many rich, gold-bearing lodes known in the county, which are awaiting the attention of capitalists.

FUTURE POLITICAL ISSUES.—The *National Intelligencer*, which supported McClellan, copies with approbation the following language of the New York *World*. They virtually admit that they are utterly whipped out in their championship of slavery. The Democratic party has had nothing but pro-slaveryism to subsist on for five years. Now, instead of disbanding, their leading organs propose to drop slavery as dead and buried—as "a moribund institution." Rats quitting a sinking ship. It is now their chief study to find some new pet policy on which to affix the label "Democracy." The only real policy left is that of seeking the "loaves and fishes." As many were "war" Democrats just before the election, so many will become "anti-slavery," as the question is decided by the voice of the people. What will become of those poor politicians whose whole stock in trade consisted in crying "abolitionist!" Othello's occupation is gone forever.

Under the head of "Future political issues," the *Intelligencer* says:

"The New York *World*, which, more than any other paper of its party, may be regarded as a typical exponent of the present attitude and future tendencies of Democratic opinion, expresses the belief that slavery is in a rapid process of disappearance as an element of political discussion likely to furnish points of difference between loyal citizens. To this effect it says:

"Before another Presidential election the abolition question, for example, will probably be in such a state that past ideas will not apply. As the problem advances toward its predetermined solution, we shall see public opinion more and more disposed to acquiesce in the manifest tendency of events. Before the expiration of its new lease of power, the Republican party will have secured a constitutional amendment for the entire extirpation of slavery in the United States. If the South should, meanwhile, gain its independence, slavery can be no longer a question of Federal politics; but if we disarm Southern resistance, the anti-slavery amendment will have been put in force, and have done its work before the Democratic party can be in power. Why should the party bind itself to a dead corpse?

"Unless the Democratic party is blind enough to run the hazard of disintegration, it must distinguish between questions virtually settled and questions that still remain open. It must so far keep pace with events as to accept their logic. Public opinion has no efficiency without political combination; but for masses large enough to act in concert, thought must be left free on all questions save those which rank as living, vital issues. The number who oppose the abolition of slavery (now a minority) is not likely to grow larger, but to grow less, with the progress of time. Every Democrat can, of course, hold whatever opinion he chooses on that subject. Such opinions are no longer of the slightest political consequence. Individual Democrats will think what they please; but the subject must be dismissed from the range of topics on which *the party* is expected to have distinctive views. There is no conceivable position on the slavery question on which the Democratic party can plant itself and become a majority. Its antecedents and associations, as well as its respect for the Constitution as it stands, [illegible] gress of events and the tendency of public opinion, as well as the Constitution in the form into which it is certain to be amended, forbid it to commit itself to the fortunes of a moribund institution." The *Intelligencer* adds:

We do not doubt that the *World* gives counsel with its usual sagacity when it advises the party of which it is a leading organ not to "commit itself to the fortunes of a moribund institution."

When Richmond commences to talk of abolition (as we hear that the Richmond press already does) then even the so-called Democratic party may well call slavery a "moribund" institution—and look about for some new shibboleth. They have need to place their house in order and prepare for political annihilation everywhere, but this yielding to the "logic of events" is especially proper in this region, where—thanks to the Wilmot proviso—in the act of Congress creating the Territorial Government of Oregon—slavery has only been known as an evil afflicting our fellow-citizens thousands of miles distant.

RUSSO-AMERICAN TELEGRAPH.—We have had the pleasure of meeting Mr. E. Conway, who is on his way to Victoria, to superintend the construction of the telegraph line through British Columbia, a distance of some 1,200 miles, intending to connect with a line through Russian Possessions to the mouth of the Amoor River, in Asia, a still further distance of at least 5,000 miles, and crossing Behring's Straits by submarine cable, which can be laid in thirty-seven miles, should it be feasible to effect the crossing in the narrowest place.

Colonel Bulkley, Engineer-in-Chief of the whole enterprise, will soon follow from San Francisco, and he will personally superintend the line through the Russian Possessions to the Amoor. This company is commonly known as the Russo-American Telegraph Company, but its real title is "Collins' Overland Telegraph Company—Western Union Extension." It is principally owned by the Western Telegraph Company, which owns the Overland Line to the States, Mr. Collins being the projector of the line, and grants having been made to him, in view of its construction. Col. Buckley goes soon to the island of Sitka, to commence operations.

The magnitude of this whole enterprise can be estimated when the reader realizes the fact that this line will extend between 6,000 and 7,000 miles, over a region almost unknown and scarcely in any part settled by civilized man. Its great feature of success lies in the fact that, when completed, it can connect Europe and America by the only certain means of telegraph communication.

EAGLE CREEK MINES.—These mines are situated near Snake river, not far from Powder river. Eagle creek empties into the latter stream. Extensive and rich mines have been discovered there, but have been difficult to work on account of the scarcity of water. Mr. Rockfellow tells us that he and others have finished a ditch at a cost of over twenty thousand dollars, capable of conveying five hundred inches or more of water over all the mining ground as yet discovered. The price of water will be fifty cents for first head and down to twenty-five cents—rather high charges, but it is confidently believed the diggings can afford it.

Rich quartz ledges have been struck upon the waters of Eagle Creek that will be well prospected the coming year. Arrangements have been made to put up a crushing apparatus in connection with a saw mill building for the purpose of working and testing these ledges. This mining district is in Union county, and promises to become permanent and important during the coming season.

DANGEROUS.—The Marysville *Express* is afraid France will get mad if we interfere with the colonizing scheme of Gwin. So says the *Appeal* man, who is n't a bit afraid of Louis Napoleon in the business.

OPHIR MINE.—The water in the Ophir mine is being greatly reduced by pumping, and large pumps are being rigged that must set things working right and profitably again.

By Overland Telegraph.

SAN FRANCISCO, Feb. 14.—We have nothing from the east yet. The most intense excitement exists among greenback speculators. This afternoon twenty five thousand dollars sold at fifty cents by sellers at three days; five thousand at 49 cents by sellers at thirty days; five thousand at fifty cents cash. These rates are reported to be predicated on dispatches from the east.

It is stated on very good authority that the steamer for to-morrow brings no greenbacks, but that $1,000,000 will arrive by the following steamer.

$[illegible] treasure was exported from California during the year 1864.

Collector Jones now requires every shipper to clear his treasure under oath at the Custom House instead of allowing it to be cleared in the aggregate by the captain of the steamer.

Several overland mails were received last night with letters dated prior to January 1st.

The case of the U. S. vs. 900 baskets of champagne, the property of J. Castern & Co., came up in the U. S. District Court to-day. Jury was empanneled and the case set for to-morrow. This will be the test case, as it is one of the numerous cases instituted by the Custom House officers during the past year. Grand Jury has indicted E. Kingsbury, John White, C. Burrows, John Westerly, Samuel Hall, George Goss and F. F. Johnson for gaming.

The Dorman, Wilson, *Bulletin*, libel suit is still progressing. The defendants to-day, moved for a non-suit, on the grounds that the averments and innuendoes contained in the article published, were not proved, or sufficient to constitute libel; also that the publication was a privileged article, and that they could not recover unless express malice was proved. The motion for a non-suit was overruled.

A programme has been arranged by the Second Brigade of Militia, for the celebration of Washington's Birthday and the firing of salutes.

James McManus, who stabbed a fellow-shipmate on the ship *[illegible]*, was discharged to-day. The evidence showing it to have been done in self-defense.

The suit of T. M. Turner vs. Andrew Webster, for 5,000 dollars for false imprisonment, is on trial to-day.

A man supposed to be Davis B. Stetson was found dead in bed this morning, at the What Cheer House.

The United States steamer, *Wateree*, leaves to-morrow on a cruise across the bay, for target practice.

A light rain has been falling all day.

Flour and wheat are well sustained. Sales of barley were made at 3½c. per lb.; Oats are dull at $2 75@2 90 per cwt.

MARYSVILLE, Feb. 13.—Since it was discovered that letters containing valuables were systematically extracted from the mails in the northern part of the State and robbed of their contents, Postal Agent Corbett and detective officer of this place traced the robbery to the Marysville post office by means of a decoy letter containing $30 in greenbacks. Officer Coffin had success in fixing the robbery upon an employe of this office named M. P. Eaton. Upon his arrest this morning the $30 greenbacks in the decoy letter, together with some $70 extracted from other letters in the same mail, were found in his possession. From confessions of the prisoner it is learned that he has thus extracted some $2,000 since October last, when his depredations began.

There are messages at the telegraph office for David Street and J. W. Godley.

Letter from Comus.

EUGENE CITY, February 10, 1865.

EDITOR OREGONIAN:

This morning at sunrise the company of infantry just organized here took its line of march for Lancaster, where they expect the steamer *Enterprise* will meet them—marching orders having been received by Capt. Rinehart. The captain was not able to go this morning, being detained by the severe illness of his wife. Recruiting is progressing slowly in Douglas county; so also, thus far is the new recruiting office for cavalry.

To-day was set for hearing the famous tax-mandamus case; but Judge Stratton having signified to the parties his wish to go to Roseburg, they met in some quiet little room one day early in the week, and disposed of the case, to the immense disappointment of the crowd that flocked [illegible] posed of, there seems to be a variety of opinions. The Judge tells us all that he has made no decision and expressed no opinion in the case; but it does not seem to be so understood by the parties, for they are vigorously prosecuting an appeal to the Supreme Court—at least, trying to do so, for I saw to-day the appeal bond lying on the counter of one of our merchants, with a long string of signatures, the parties headed by the redoubtable John Whiteaker and sureties, all together looking very like a young Declaration of Independence; and whether right or wrong, the parties seem quite as resolute in their efforts as did John Hancock and his compeers. Seriously, it is to be regretted that the Judge did not give the case a hearing and then decide, as it is the general opinion that his decision would have been acquiesced in, if carefully made. Our County Treasurer took down to Salem all the taxes collected, nearly $5,000, which is more than half the State tax.

Shall I devote a few words to poor Vindex, your correspondent from this place? "The game is scarcely worth the candle," and it is not unlikely that the parties on whom, in his zeal to serve the gold-grabbing office-holders, he has seen fit to vent his spleen, will probably give him ample attention in due time.

The head and front of my offending, supposing his silly surmise to be correct, is simply that I have been on the "Copperhead ticket" and am at the same time correspondent for a good Union paper. Where is the point of his criticism, and how does it prove that greenbacks can't pay taxes while they pay all other debts? How does that prevent my writing a statement of facts for a Union newspaper? I know a Copperhead that drinks his coffee with sugar in it, but I don't propose to take mine "straight" on that account. Nor do I propose to stop my OREGONIAN because such a [illegible] as Vindex finds a place occasionally in its columns. I defy him to impeach my record as a true Union man. But enough for this time. The question being whether any further notice shall be taken of Vindex at present, although I did to some extent introduce the bill; yet, believing it to be in accordance with the wishes of my constituents, I shall vote against it.

Rumor has it that several other parties are about to apply for a writ of mandamus, with a view of appealing, so that the question can be tested, but many now may pay up to save trouble. Has any action been had anywhere on your suggestion of making up an agreed case and sending it directly to the Supreme Court?

Weather is beautiful thus far this month, though the farmers complain that the frosts are injuring the growing grass and young grain. COMUS.

As Vindex and Comus are personal friends that we value, we have taken some liberties with their correspondence where it seemed that *[illegible]* would improve them.—ED.

CANYON CITY MAIL.—The mail to Canyon City for eight months past has been carried by the Dalles and Canyon City Stage Company, who have received no remuneration therefor up to this time. As the Post Office Department has declared this is only a special route, nothing but the net proceeds of the Canyon City office can be appropriated towards defraying the expense of carrying, so the Stage Company have concluded the job, not a paying one, and have discontinued that service. Hereafter, all persons sending letters to Canyon City can have them safely and expeditiously carried by express, as Wells, Fargo & Co. send once a week from the Dalles, to be increased to twice a week as soon as spring opens. They charge a dime, and offer the only sure means of sending letters regularly.

EMANCIPATION IN BRAZIL.—That country did not emancipate her slaves, as we heard by telegraph; but the Emperor ordered the release of all the captives taken from slavers who had served an apprenticeship of fourteen years. It seems they have been kept in servitude contrary to agreement with Great Britain, who left them in the care of Brazil.

REAL ESTATE IN SAN FRANCISCO.—The *Appeal* says speculation in real estate there has only been profitable in certain parts of that city. In other parts property is of lower price than it was eight or ten years ago.

SURVEYING.—We understand that Mr. Odell and party will leave here next Monday, to engage in surveying east of the mountains during the coming summer. They will commence in Walla Walla valley, and proceed southward. Rev. W. S. Lewis will accompany the party for the purpose of rusticating in the mountains and improving his health.—*State Journal.*

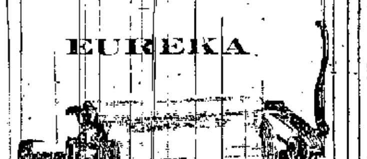
EUREKA



IMPROVED SELF-ADJUSTING
CLOTHES WRINGER
AWARDED THE FIRST PREMIUM
AT OREGON STATE FAIR IN 1864.

Abstract from Examining Committee's Report of the San Francisco "MECHANICS' INSTITUTE" INDUSTRIAL EXHIBITION, OF 1864:

"CLOTHES WRINGERS.—A variety of these Excellent Household Helps were found competing for popular favor. Though none of them are entitled to a Premium, we consider the EUREKA, exhibited by E. Traver & Bro., worthy of honorable mention." NOTE.—No Premiums were awarded to articles of Eastern Manufacture. The EUREKA CLOTHES WRINGERS are made Superior to all others by the use of

PATENT ELLIPTICAL STEEL SPRINGS,

Which produce a UNIFORM PRESSURE upon garments of every size. The IMPROVED EUREKA has the HINGE CLAMP, which will fit any Tub or Box perfectly. Its entire construction is simple and excellent. Every Family should have one. It will save its EXPENSE in saving Time, Labor and Clothes. E. TRAVER & BRO., General Agents.

THE WORLD RENOWNED

SINGER SEWING MACHINES!
MANUFACTORY:
[illegible] Mott street, New York.

Notice—"The Singer Sewing Machines are the only Machines that can Sew all Kinds of Cloth, and with all kinds of Thread."

Singer's Letter A Family Machine is the best and cheapest Machine in the world for Family Sewing. There is no doubt as to the value of our Machines for manufacturing purposes, but it is only of late that the public began to learn that the essential elements of a Machine best adapted to the heaviest work, would also be the elements to be employed in a Family Machine.

We would ask for our **Letter A** Machines the attention of Vest Makers and Dress Makers, and all those who want Machines for Light Manufacturing Purposes. They embody the principles of the Manufacturing Machines, making the [illegible] stitch, and are destined to be as celebrated for FAMILY SEWING and Light Manufacturing purposes, as our Manufacturing Machines are for manufacturing purposes in general.

FAMILY SEWING MACHINES are valuable in proportion to the number of things they can do well. See a pattern [illegible] before making a purchase.

All persons requiring information about Sewing Machines, their sizes, prices, working capacities, and the best method of purchasing, can obtain it by sending for a copy of the SINGER MANUFACTURING COMPANY'S ILLUSTRATED PAMPHLET, which is entirely devoted to the subject. IT WILL BE SENT GRATIS.

St. Valentine's Day.—During the Post Office yesterday and the [illegible] glimpse of smiling [illegible] the bearers of sacred messages [illegible] that

[illegible]

Bucking Out.—A friend lately from Washoe relates the practices in vogue there adopted by the heavy share holders in mining operations to freeze out the holders with more limited means. The practice of freezing up companies by depreciating the stock, running up enormous expenses and levying assessments [illegible] to freeze out small holders. The matter is [illegible] when the stock sells for assessments and is purchased by the knowing ones, soon after which dividends are declared. The Gould & Curry has been prodigiously managed, but notwithstanding the countless thousands thrown away upon superfluous and extraordinary improvements is still paying dividends. The stock has very materially depreciated however, under the costs incurred by its princely management. One would hardly be astonished to think that it required a gold mine to work a silver mine, after a visit to Washoe but as everybody can't [illegible] Washoe and we are just entering upon the new era in quartz operations we feel that the item will be worth all [illegible] to our readers who are contemplating investments on a small scale, although we are firmly convinced of the reliable character of a goodly portion of the companies organized so far, and have no prospects of frees [illegible] our observation, but that [illegible] and swindling will be inaugurated before the close of the campaign on "bricks," is very reasonably supposed

Affair Between Watchmen.—We have known for several weeks of a feud existing between two of the private watchmen of this city, deputised as Police officers by Marshal Hoyt and have refused to give the facts of the case simply because it was a personal affair, and would result in no good to the community under the present arrangements for supporting a Police force. When the Council will inaugurate a system to provide for good and efficient men in those positions, the city will be safer and better for it, and when an officer is found derelict of his duty sleeping, gambling, etc, when he should be on his beat, the Marshal can remove him for a better man. It is a bad policy to compel private citizens to pay for the individual watching of their own premises and worse to know that the men so paid neglect the trust reposed in them. The affair between these two officers is fast culminating one of them having been arrested at the instigation of the other yesterday, and sent to Fort Vancouver as a deserter from the United States service

Fire Department.—The delegates recently chosen from the various fire companies of the city, to represent the interests of the department for the present year, met at the Council Chamber on Monday evening and perfected an organization of the new Board by the selection of the following officers President A B Hallock Secretary, H Boyd; Treasurer, Alex Dodge. By an act of the Legislature, passed at the session of 1860, the Board of Delegates are empowered to make laws for the government of the fire department; they may censure suspend remove from office, or expel from the Department, any officer or member who shall refuse to obey lawful orders at any fire they examine the returns and declare the results of Department elections, fix the times for holding meetings etc. The Board is constituted of three members from each company

Military Appointments.—We learn that A J Boreland, 2d Lieut Oregon Infantry, after considerable difficulty, has succeeded in raising his company Lieut Kappus will go to the Dalles in a few days and muster in the company. The Governor has appointed A J Boreland Captain and Wm H Rand 1st Lieutenant. It will be remembered that Capt Boreland represented Grant county in the last Legislature. Mr Rand has served three years in the Oregon Cavalry, and by his attainments, energy and moral worth, worked his way up from a private to the position of 1st Lieutenant of his company. Faithful veteran soldiers should thus be remembered and his services in the new company will be invaluable. He has been stationed, for a considerable of his term at the Dalles where he has many friends who will be pleased with his promotion. We know nothing of Mr Power but learn that he is a resident of Grant county, and has rendered efficient service in raising the company

Robbery of a Chinaman.—The robbery of a Chinaman reported to have occurred one day last week, was the subject of comment on the streets yesterday. John appears to have visited the rural districts, not far from the city, during the sunny days of their late festivals in search of chickens. He displayed considerable cash, paying as he purchased, and finally started for his home with an assistant John, the fowls hanging upon a pole between them. When near Wilkinson's bridge a man with a blackened face bounced upon them with pistol in hand demanding John's money which was yielded. John came home feeling quite excited at the outrage, declaring that it was "no belly good—Chinaman fraid big man shoot um!"

Premature.—In the San Francisco *Golden Era* of the 5th inst, we find the following: "George Pardey a really clever young Comedian now engaged in Potter's company in Portland, will soon make his *debut* at Maguire's Opera House." The *Golden Era* is misinformed. Mr Pardey has no engagement with Maguire to perform in San Francisco. At present his only engagements are with Mr Potter but we suppose he may eventually carry out the somewhat premature prediction of the *Era*

Exploded.—The Ten Mile creek diggings near Dalles city have "played out," we were informed by reliable gentlemen last evening. The cause of the excitement was the discovery of a few quartz specimens that had been thrown away or lost by parties who had camped at that locality, *en route* to Dalles from Owyhee. Those staking off claims were "steamboated."

Very Good for a Boy.—One day last week Master Edwin Talbot killed a buck about three miles from town which when dressed made a net weight of 117 pounds. Some old gunners don't do as well in a [illegible] and sometimes return sore footed and empty. The boy says he thought he had killed a mule and most anybody else would think so

A Handsome Bird.—The fine steamer *Fanny Troup* Capt Turnbull now carries perched upon her pilot house a handsome gilt emblem of the bird of Liberty, the American Eagle, presented by Captain Connor of the steamship *Oregon*. It is a fine present, fittingly bestowed

Missing.—We miss the first volume of the Weekly Oregonian from our office and will be greatly obliged to any person who will return it or give us the desired information as to where it may be found. The volume is for the year beginning with December 1850

County Court.—The Grand Jury yesterday presented four indictments for trial. The day was occupied disposing of motions and demurrers. The case of [illegible] Fisher was set for trial at 9 [illegible] to-day

Auction.—[illegible] furniture as was ever offered for sale at auction will take place this [illegible] together with a variety of groceries, etc [illegible] regular sale of Mr A B Richardson, this morning

Navigation.—All steamers of the regular and [illegible] on the rivers of Oregon continue [illegible] without interruption except those above [illegible] on the [illegible] portion of navigation remain blockaded with the ice

Rain.—Copious showers have visited this region of country at intervals, since Saturday evening at 5 o'clock

Recorder's Court.—Six cases were entered upon the docket of the [illegible] day. Two continued [illegible] dismissed and [illegible] disposed of by fines

The Oregon.—The steamship *Oregon* Captain Connor will leave this port for Victoria and San Francisco at 10 o'clock [illegible] to-day

Rich Mines in Utah.—[illegible] The Mormons have persistently denied that there were mines in Utah Territory but the following from the *Vedette* January 16th tells another story:

Our readers will understand that the silver lodes in Rush Valley, thirty-eight miles from Salt Lake City have not been developed to any extent for want of capital. The [illegible] to get the surface for specimens. A few enterprising gentlemen however being determined to ascertain what their claims contained, run a shaft on the Great Basin [illegible] and struck the lode three feet wide, at thirty feet from the surface, on the 13th inst and up to now [illegible] rock as can be found [illegible] coast. It is exactly similar to the [illegible] rock of Fagan Cañon which assays five [illegible] dollars to the ton. The surface of the Great Basin ledge was but ten inches wide and two thirds galena. The latter has entirely disappeared, and the specimens before us have the appearance of being [illegible] sulphurets. We regret that [illegible] an assayer, else we would have the specimens in our own [illegible] tested. The Great Basin is supposed to be an extension of the celebrated Quandary lode, and the present rich strike was made ninety feet from the [illegible]. It is fully demonstrated now that the galena will entirely disappear in the Rush Valley mines [illegible] distance of from thirty to fifty feet from the surface and in its stead will be found rich sulphurets of silver not surpassed by any on the continent

The New York Hotel Incendiaries.—The last number of *Wilkes' Spirit of the Times* says that the military authorities of New York assisted by the Detective force, have arrested every one of the incendiaries who, some four or five weeks ago, endeavored to set that city on fire in a dozen places. We are informed also says the *Spirit* that the confessions of all these persons have been taken and that the most astonishing revelations may in due time be expected. For reasons however connected with the public welfare and likewise ultimately connected with the welfare of the [illegible] detective force, none of these revelations will be published till after the conclusion of the war. And even then the names of the parties will be reserved, in order that the interests of the community may not be prejudiced by a premature disclosure. Sufficient has been communicated to us, however to satisfy us of the complete success of General Dix and the New York Detective Police in this matter

Company C All Right.—The following fully answers the assertion in the Victoria papers that some of Capt. Crandall's men deserted at Victoria

Editor American Flag: I noticed last evening that the *Colonist* had innocently copied an item from a Victoria paper to the effect that seventeen men had deserted at Esquimalt from a company of United States soldiers *en route* to Steilacoom. Being a passenger at the time and acquainted with Captain Crandall, who had charge of the company, I can state most positively that there was not a single man who evinced a disposition to leave but have the assurance of the Captain that every man was on board the [illegible] the next morning ten minutes before the steamer left. As an act of justice to the men who had voluntarily enlisted in the service of the United States I would ask that you will notice the fact in your paper and show the falsity of the report which could only emanate from the pen of an enemy of our country J W [illegible] PIERSON

Improvements.—Salem still improves. The steady increase in the number of dwellings and other buildings has not been suspended even during the winter. All through the coldest and most stormy weather the Knights of the jack plane hammer and saw have been at work. An unusually large number of buildings will go up during the coming season, and by the close of next summer there will be but few available vacant lots within the present limits of our city. There are petitions now before the city council to have the streets extended through the land owned by Mrs Wilson and Mr Roberts in the eastern part of the city, so as to give a chance to spread in that direction. There is opposition to this on the part of those owning the land, but these objections will doubtless yield in time to apparent public want. The council has passed an ordinance requiring sidewalks on the principal streets and by the coming of another winter most of the citizens will be able to travel dry shod to and from their places of business —*Statesman*

Sale of Copperstock.—The Calaveras *Chronicle* learns that Colonel Hardy, of Copperopolis has sold out his interest in the Union Copper mine for the sum of six hundred and fifty thousand dollars. The sale of these shares at so high a figure, remarks the *Chronicle*, would seem to prove that those who purchase mining claims have implicit faith in the validity of the titles which miners can give. No man would pay over half a million of dollars for a claim if there was the shadow of doubt about the title. The miners and even capitalists, are satisfied with the present system and do not ask any additional security for their mineral possessions, only those who are desirous of having our mineral lands thrown into the market where they can be purchased by speculators, want any change

Soldier's Dinner.—Last Tuesday the ladies of Eugene City, true to their reputation for patriotism and generosity gave a sumptuous dinner to Capt Rigdon's Company of Volunteers at the quarters in the old City Hotel building. "About seventy five 'soldier boys,' and a number of their friends—mostly ladies—were partakers of the feast. From the way the boys sent up cheer after cheer they evidently appreciated the viands or were greatly pleased with the presence of the fair sex. One of them pronounced the dinner the best he ever saw but gives it as his deliberate opinion that the girls who waited on the table, were the most interesting part of the arrangement.—*State Journal*

Examination.—The semi annual examination of classes in Willamette University came off during last week. The attendance of students thus far during the present year has been large and regular, and the examination showed that neither teachers nor pupils have been idle. It is hoped by the beginning of another year the new building will be completed, when the institution will be able to afford better accommodations to a much larger number —*Statesman*

New Volume.—The Daily Oregonian has entered upon the fifth year of its existence. After many difficulties and great perseverance on the part of its proprietor it has become one of the institutions of the country and for telegraphic and general news it has no equal on this coast north of Sacramento —*State [illegible]*

Departure of Volunteers.—Capt Rigdon's company have left here for Salem where they will be mustered into service. The company is mostly made up of farmer's sons, and contains many of the best citizens of Lane and Douglas counties —*State Journal*

One Word to the Ladies.—We supposed that the *ultima thule* in the art had been reached some months ago when we saw for the first time, a Grover & Baker machine in full action, but now a lady friend, well posted in all matters pertaining thereto informs us that an important part of the performance escaped our notice and in proof thereof exhibits to our astonished gaze her little boy's frock embroidered with tasteful and fanciful designs which she informs us was all done, stitching embroidery and all on the same machine. This is certainly remarkable but never theless true and if all the purchasers of these celebrated machines are as enthusiastic as our friend, the proprietor must be having one continual "hymn of praise" ascending in their behalf

WISTAR'S BALSAM

—OF—

WILD CHERRY!

HAS BEEN USED FOR NEARLY

HALF A CENTURY,

WITH THE MOST ASTONISHING SUCCESS IN CURING

Coughs, Colds, Hoarseness, Sore Throat.
Influenza, Whooping, Cough, Croup,
Liver Complaint, Bronchitis,
Difficulty of Breathing,
Asthma, and every
affection of the

THROAT, LUNGS, AND CHEST,

INCLUDING EVEN

CONSUMPTION.

There is scarcely one individual in the community who wholly escapes during a season from some one however slightly developed of the above symptoms—a neglect of which might lead to the last named and most to be dreaded disease in the whole catalogue. The power of the balsam gum of the Wild Cherry Tree over this class of complaints is well known so great is the good it has performed, and so great the popularity it has acquired

In this preparation besides the virtues of the Cherry, there are commingled with it other ingredients of like value thus increasing its value ten fold, and forming a Remedy whose power to soothe to heal to relieve and to cure [illegible] exists in no other medicine yet discovered. The unqualified success that has attended the application of this medicine in all cases of

PULMONARY COMPLAINTS

has induced many physicians of high standing to employ it in their practice, some of whom advise us of the fact under their own signatures. We have space only for the names of a few of these —

The proprietors have letters from all classes of our fellow citizens from the halls of Congress to the humblest cottage, and even from beyond the seas for the fame and virtue of Wistar's Balsam have extended to the uttermost bounds of the earth without any attempt on our part to introduce it beyond the limits of our own country

TO CALIFORNIANS AND OREGONIANS.

After October 1, 1863, all genuine WISTAR'S BALSAM of WILD CHERRY for the Pacific Coast will be enclosed in a new wrapper which will bear the printed names of both Seth W. SARSAPARILLA, YELLOW DOCK

—AND—

IODINE ALTERATIVE

FOR THE

CONSTITUTION.

CLEANSE THE BLOOD.

WITH corrupt, disordered or vitiated Blood you must be sick all over. It may burst out in pimples or sores, or in some active disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. Sarsaparilla purges out these impurities and stimulates the organs of life into vigorous action, restoring the health and repelling disease. Hence it rapidly cures a variety of complaints which are caused by impurities of the blood, such as Scrofula or King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, St Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes Female Diseases such as Retention Irregularity, Suppression, Whites, Sterility Syphilis or Venereal Diseases, Liver Complaints and Heart Diseases

Blood and Liver.

This valuable Medicine is now available to the public for the cure of

SCROFULA, CONSUMPTION, RHEUMATISM, CANCER,
HEART LIVER AND KIDNEY DISEASES,
NEURALGIA, NERVOUS AFFECTIONS, BRONCHITIS,
DYSPEPSIA, &c

AS A TONIC,

its operations are evinced by strengthening the digestive organs and increasing the appetite. In cases of Dyspepsia, Emaciation and Debility an increased nutrition of the body is the result of the employment of Iodine. The patient recovers flesh strength and color, hitherto pale, relaxed and feeble he becomes full, strong and florid

Are you sick, feeble and complaining? Are you out of order with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping over you, and should be averted by a timely use of the right remedy. Take Le Doyen's Sarsaparilla, and cleanse out the disordered system—purify the blood, and let the fluids move on unobstructed in health again

AS A LITHONTRIPTIC,

it has no equal being chemically combined with Iodine, it possesses in a high degree the power of dissolving Stone in the Bladder, and uratis of the kidneys, preventing gravel formation and enlargement of the prostrate glands, irritation of the neck of the bladder dropsy, etc

The Old House Far Away.

The wild birds warble, the silvery rills
Sing their lullaby round the nest,
And the peaceful shades of the purple hills
Fall [illegible] mother's [illegible];
Its windows are low, and its thatch is low,
And its ancient walls are gray,
O, I see! I love it! wherever I go!
The old house far away.

The little clock ticks on the parlor wall,
Recording the passing hours;
And the pet geranium grows rank and tall,
With its brilliant scarlet flowers;
And the old straw chair, so easy and low,
Where mother sat knitting all day,
O, I see it! I love it! where'er I go!
The old house far away.

Dear mother! how plainly I see her now,
Reclining in that old armchair,
With the sunset resting upon her brow,
That was once so smooth and fair;
With her crimpled border white as snow,
And her once dark hair now gray—
O, I see it! I love it! where'er I go!
In that old house far away.

Not all the treasures the world affords,
The riches of land or sea,
Nor all the wealth of earth's proud lords,
Could blot from my memory
The roof that sheltered each dear, dead head,
And the humble floor of clay,
Where the feet I loved were wont to tread,
In the old house far away.

SHERMAN'S LOVE OF MUSIC.—Sherman's love of music is well portrayed by the correspondent of the *World*, in the following incident, which rivals the well remembered "Annie Laurie" of the Crimean campaign. He says:

"Memorable the music 'that mock[illegible] moon' of November of the soil of Georgia; sometimes a triumphant march air stirring a glorious waltz, again an [illegible] and to hope, the heart alike to recollections of [illegible] to the Fleeting out from their blankets and [illegible] ears of soldiers tents, these tunes hallowed als within all who listened. [illegible] the evening before his tent in the glow of a [illegible] fire one evening, Gen. Sherman let his cigar go out to listen to an air that a distant band was playing. The musicians ceased at last. The General turned to one of his officers:

"'Send an orderly to ask that band to play that tune again.'

"A little while, and the band received the word. The tune was "The Blue Juniata," with the exquisite variations. The band played it again, even more beautifully than before. Again it ceased, and then, off to the right, nearly a quarter of a mile away, the voices of some soldiers took it up with the words. The band, and still another band, played a low accompaniment. Camp after camp began singing; the music of 'The Blue Juniata' became for a few minutes, the oratorio of half an army."

EXTRAORDINARY CHANGE OF FORTUNE.—Among the many and surprising changes fortune delights in working, the elevation of a Turkish slave to the rank of a European embassador, is perhaps one of the most wonderful. "There was a time," writes a Berlin correspondent of a London paper, "when Madame Benedetti, whose arrival with her husband, the new French embassador here, is expected daily, occupied no more exalted position than that of a handmaiden to some Ottoman slave dealer. A Greek by birth, she was kidnapped, carried away, and sold into captivity during the sanguinary struggle which attended the liberation of her country. Thus it was, that, a mere child, she was exposed for sale in the slave market of Cairo, and passed over into the possession of M. d'Anastasi, a countryman of hers, and Swedish Counsul General in Egypt. The gentleman, whom good luck threw in her way, gave her an excellent education, and eventually bequeathed the whole of his immense property to the child whom he had adopted years ago and had learned to love. While her benefactor was still alive, Mdlle. d'Anastasi, whose original name remains unknown, married M. Benedetti, the consular agent of France at Alexandria. Within a few days she will be one of the three first ladies at Berlin, taking rank above all others, the Queen alone excepted."

A lady residing in the Rue de Revoli, Paris, returned sometime since from a visit she had made in the department of Finistere, bringing with her a young orphan girl, poor, but very pretty, named Yvonne S——, whom she engaged as her waiting maid. Last month a short time after her return to Paris, the lady died. When the body had been prepared for the coffin, and was for a short time left alone, Yvonne was seen to go stealthily into the room, lift up the shroud, and then suddenly leave. The first idea was that she had taken a ring which at the express desire of the deceased had been left on her finger. On examination, however, the ring was discovered to be untouched, but a paper was seen attached with a pin to the shroud. On inspection it was found to be a letter addressed by the young orphan to her mother, who died two years ago, and was as follows: "My good Mother—I have to tell you that M. B. has made me an offer of marriage. As you are no longer here, I beg you to make known to me in a dream whether I ought to marry him and to give me your consent. I avail myself, in order to write to you, of the opportunity of my mistress, who is going to heaven." The letter was addressed "To my Mother in Heaven." The person alluded to in the letter is one of the tradesmen of the deceased lady, who, having been struck with the good conduct of the young girl, had made her an offer of marriage.

HOW TO GET RID OF RATS.—For some years I was considerably annoyed with rats. I tried various "vermin poison," traps, etc., with very little success, until I thought of a mode which was adopted for destroying dogs that used to hunt our rabbit warren in the old country. So I got a quantity of broken bottles and window glass, and with a hammer and an anvil, triturated it pretty fine (a stone would do to pound the glass;) I then sifted the coarse part out, and mixed a cupful of the fine with a cupful of flour and another of oatmeal, and, scenting it with a few drops of aniseed to attract them, I placed it on boards in the cellar, etc. They ate it up so fast that one of the family observed that "instead of poisoning, it must be fattening them;" but a few days told a different story. The last mess served for them remains untouched yet though put down last Fall, and no appearance of rat or mouse, living or dead since. Neither have we noticed any smell, or blue bottle (meat) flies, as there would have been had they died on the premises. It was a happy riddance. The mixture must be kept from children, dogs, etc., as it will kill them as well as rats.

MEMORY.—It is said of Cardinal Richelieu, that when he built his magnificent palace on the site of his old family chateau at Richelieu, he sacrificed its symetry to preserve the room in which he was born. An attachment of this nature is, generally characteristic of a benevolent mind; and long acquaintance with the world cannot always extinguish it. "To a friend," says John, Duke of Buckingham, "I will express my weakness. I am oftener missing a pretty gallery in the old house I pulled down, than pleased with a saloon which I built in its stead, though a thousand times better in all respects." This is the language of the heart, and will remind the reader of the good humored remark in one of Pope's letters—"I should hardly care to have an old post pulled up, that I had remembered ever since a child."

One Englishman asked another why learning was always called a republic. "Because," said the other, "scholars are so poor that they have not a sovereign among them."

Every man is involuntarily original in at least one thing—his manner of sneezing.

A ROMANTIC STORY.—The correspondent of the Springfield *Republican*, with the Potomac army, gives the following story of a German corporal:

Seven years ago, and before he enlisted into the British army in New York. The first night as a recruit he passed with a fellow German, who had also just enlisted, and the two talked together as countrymen thus situated would be likely to. The next day they left for [illegible], and there they were separated. Time passed on. This soldier was ordered to India. He was nearly five years in service. Receiving his discharge, he returned to England, shipped on a vessel for Norway, was, later, on a Norwegian vessel, and in that was shipwrecked on the coast of Sweden, barely escaping with his life he went to Wales again, he was on a Prussian vessel; he visited Constantinople, Odessa and the West Indies. Coming to New York, he was, after one or two more voyages, led to Connecticut, enlisting at [illegible] he joined his regiment last [illegible] in all the cester Point, and has six [illegible]. A fortnight ago, while the army was [illegible] of the guard, he night since, while on guard at midnight in passing a tent he attracted his special attention was calling the [illegible] a voice, the peculiar tones of red remembered associations of that and night as a recruit in New York, more than seven years before. He was sure that the voice was that of his then companion, and inquiry proved him not mistaken. His comrade's experience had been hardly less varied than his own. After several years service on special duty in Great Britain, he also had taken to the sea. Coming to America, the opening of the war had found him at the South, and there he joined the rebel army. For a time he was an orderly of a well known Confederate general, and as such he, on one occasion carried messages back and forth in a battle where the 10th Connecticut fought prominently and victoriously. Later, he escaped from Charleston to our gunboats, and after various experiences at Morris Island, Hilton Head and in New York, entered the army as a substitute, and here he found himself in the very regiment before the pressure of whose gallant charge he had two years before fled in precipitous haste after his chivalrous and fleetfooted commander, on a battle field in another State; and now his voice was recognized and his name was called by a fellow countryman with whom he had been for a single night his comrade in the long gone years in a foreign land. Would it be strange if he rubbed his eyes and asked if it were all a dream?

STANDARD OF WEIGHT.—Henry III caused a grain of wheat, gathered from the middle of the ear, to be the standard weight; and thirty two of them, well dried, were to make a pennyweight, twenty pennyweights one ounce, and twelve ounces one pound troy. Since then it has been thought advisable, to divide the pennyweights into twenty-four equal parts, called grains. The word "Troy" was the monkish name given to London—Troy Novant. Troy weight, therefore, is, in fact, London weight.

Make a man think he is more cunning than you, and you can easily outwit him.

LILLIE'S LOCK OPENED

In One Minute.

NEW YORK, September 2, 1864.

F. TILMAN, Esq., 218 Battery street,
Between Commercial and Clay, San Francisco.

DEAR SIR, WE NOTICE AN ADvertisement in your daily papers respecting the "security" of the "Lillie" lock. We are aware that you well understand this lock, and, of course, will not allow yourself to be annoyed by such representations. We have just sent for one of our men at the factory, and he, in our presence, opened one of Lillie's best safe locks, after it had been locked and the combination turned on,

By One Blow of the Hammer

Against the knob on the outside, and thereby breaking the cast iron ball inside.

The whole time occupied in opening the lock was about ONE MINUTE. We send you this lock that your friends may not be deceived by false representations, etc.

Respectfully etc.,
A. E. TILTON,
WM. McFARLAND.

GLOUCESTER, March 26, 1864.

Messrs. TILTON & McFARLAND,
Safe Manufacturers, Boston, Mass.

Gentlemen: From representations made by Mr. Lillie, I was induced to purchase of him one of his

So Called "Fire Proof Safes."

On the 18th of February last, a fire occurred in our block which destroyed a number of buildings, and our own with the rest. We trusted our books, papers and all in the safe. After the fire the so called "safe" was taken from the ruins, and on opening it we found that

Everything had been Destroyed.

We send you the safe, with what is left of the papers, and you will see that not one of them is legible or strong enough to sustain its own weight. Having the curiosity to know how our neighbors fared in this fire, we noticed McKenzie & Hardy just opening their safe (TILTON & McFARLAND'S make) and its contents were found to be

In Perfect Condition.

This led us to further investigation, and we found to our astonishment that from the large amount of combustible material in Messrs. McK. & H.'s cellar—such as lard, pork, etc., the safe was subjected to a much greater heat than ours, we being in the clothing business and had nothing in the cellar. There was another of Lillie's safes here subjected to the same fire faring, however, no better than ours.

Very respectfully,
Your obedient servants,
(Signed:) GEO. L. CHESBORO & CO.

Proclamation.

STATE OF OREGON, EXECUTIVE DEPARTMENT,
[illegible]

WHEREAS, I HAVE RECEIVED A REQUISITION from Major General Irvin McDowell, commanding the Department of the Pacific, [illegible] the War Department, for [illegible] Regiment of Cavalry [illegible]

[illegible]

Now therefore, I, ADDISON C. GIBBS, Governor of the State of Oregon, [illegible] In witness whereof I have hereunto set my hand and caused the Seal of the State to be affixed. Done at Salem this 12th Day of January, A. D. 1865.

ADDISON C. GIBBS,
Governor of Oregon.

Attest:—SAMUEL E. MAY,
Secretary of State.

Plan of Recruiting.

The Regiment will retain the name of the 1st Cavalry Oregon Volunteers. It will consist of twelve Companies. Seven Companies of the old Regiment will be retained [illegible] the minimum strength required. Five new Companies remain to be raised. A Recruiting Officer for each new Company will be appointed.

Commissions will be issued by the Governor to Recruiting Officers, conditioned that they shall recruit their respective Companies to the [illegible] and be ready to be mustered into the service within a time hereafter to be designated. All the officers for the new Companies and the First and Second Lieutenant for the old ones will be appointed as soon as the Companies are filled.

As soon as it is practicable, the State will be divided into Districts, according to the number of persons in each, liable to do military duty, and to the number of troops to be furnished. When such Districts have furnished their quota [illegible]

The State has provided by law for the payment of a bounty of $150 [illegible]

Under Act of Congress, those who enlist for one year are entitled to a bounty from the General Government of one hundred dollars, for two years, two hundred dollars, and for three years, three hundred dollars, one-third of which is payable at the time of [illegible]. Neither drafted men nor substitutes [illegible] entitled to bounty.

The wages of a Private soldier are $16 a month, besides clothing, equipments, rations, medicines and medical attendance, and other allowances furnished by the United States.

The pay per month to 1st Sergeants of Cavalry, $24; Sergeants, $20; Corporals $18; Buglers, $16. A Company can be mustered in on reaching a minimum of [illegible] enlisted men.

All the Horses for enlisted men will be furnished by the Government.

Appreciating highly the patriotic action of the people in responding to the previous call for an Infantry Regiment, it is hoped that equal alacrity will be exhibited in raising a Regiment of Cavalry.

Organization of a Regiment.

One Colonel,	One Reg'l Commissary, (an extra lieutenant,)
One Lieut.-Colonel,	One Veterinary Surgeon,
Three Majors,	One Sergeant Major,
One Surgeon,	One Quartermaster Serg't,
Two Assistant Surgeons,	One Commissary Sergeant,
One Regimental Adjutant, (an extra lieutenant,)	Two Hospital Stewards,
One Reg'l Quartermaster, (an extra lieutenant,)	One Saddler Sergeant,
	One Chief Trumpeter.

Organization of a Company.

One Captain,	Five Sergeants,
One First Lieutenant,	Eight Corporals,
One Second Lieutenant,	Two Trumpeters,
One First Sergeant,	Two Farriers or Blacksmiths,
One Quartermaster Sergeant,	One Saddler,
One Commissary Sergeant,	One Wagoner.

The minimum number of enlisted men required for a Company is 82; the maximum number, 101.

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DIScovery of modern chemistry, and it is impossible to [illegible] a remedial agent. Iodine has been considered the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system. It acts upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS and GLANDULAR SYSTEM,

and is said to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the great ability which have been devoted to this subject, no remedy has [illegible] been discovered until Dr. Henry Anders, a physician and chemist of New York, after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER

without a solvent. This, considered impossible by the scientific world, is attested by certificates of analysis from Dr. J. R. Chilton of this city, and Prof. Booth, U. S. Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals, and its use recommended to practitioners—see "American Medical Monthly," July 6, 1856.

This valuable medicine is now available to the public for the cure of scrofula in all its manifold forms, Consumption, Cancer, Heart, Liver and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, etc.

AS A TONIC

Its operation is exceedingly strengthening, the digestive organs and increased nutrition of the body is the result of the employment of Iodine. The patient recovers flesh, strength and color, hitherto pale, relaxed and feeble, he becomes full, strong and florid.

Full directions accompany each bottle.

Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest and Lungs, Difficult Breathing and all the Diseases of the Pulmonary Organs.

ITS ACTION IS EXPECTORANT, ALTERATIVE, SUDORIFIC, SEDATIVE, DIAPHORETIC AND DIURETIC, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration, and causes the lungs to throw off the phlegm or mucus; CHANGES THE SECRETIONS AND PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect, that it is WARRANTED TO BREAK UP THE MOST DISTRESSING COUGH IN A FEW HOURS' TIME, if not of too long standing. IT IS WARRANTED to give entire satisfaction even in the MOST CONFIRMED CASES OF CONSUMPTION! IT IS WARRANTED NOT to produce costiveness (which is the case with most remedies) or affect the head, as it contains no Opium in any form. IT IS WARRANTED TO BE PERFECTLY HARMLESS to the most delicate child, although it is an active and powerful remedy for restoring the system. THERE IS NO REAL NECESSITY FOR SO MANY DEATHS BY CONSUMPTION, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.

"CONSTITUTION WATER,"

THE ONLY REMEDY FOR DISEASES OF THE

BLADDER, KIDNEYS,

Gravel, Dropsical Swellings,

GENITAL DEBILITY, ETC.

THE ASTONISHING SUCCESS WHICH HAS AT tended this invaluable medicine renders it the most valuable one ever discovered. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the debilitated and shattered system. In fact, it stands unrivaled as a remedy for the permanent cure of the maladies above mentioned, and of

DIABETES, IMPOTENCY,
LOSS OF MUSCULAR ENERGY,
PHYSICAL PROSTRATION,
INDIGESTION,
SEMINAL WEAKNESS,
GLEET, FLUOR ALBUS,

And in every disease in any way connected with the disorder or decay of the PROCREATIVE FUNCTIONS. Persons about to marry, if conscious of any weakness, should take the

CONSTITUTION WATER,

Whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once restored, revived and built up. Well may this celebrated medicine be called the

MEDICAL WONDER.

The shocking, trembling victim of depression and debility becomes a new man; he stands erect, he moves with a firm step, his mind, which was previously sunk in gloom, or an apathy, becomes bright and active; and he goes forth to regenerated, conscious of new vigor.—The Constitution Water restores the CONSTITUTION itself, and restores it to its normal condition.

IRRITATION OF THE NECK OF THE BLADDER,
INFLAMMATION OF THE KIDNEYS, AND
CATARRH OF THE BLADDER,
STRANGURY AND BURNING, OR PAINFUL URINATING,
CALCULUS, GRAVEL,
BRICK DUST DEPOSIT, AND MUCOUS OR MILKY DISCHARGES AFTER URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. TRY IT and they will ever give praise to

CONSTITUTION WATER,

Males or Females,

Are you troubled with that distressing pain in the small of the back, and through your hips? CONSTITUTION WATER will relieve you like magic.

LEFFEL'S AMERICAN

DOUBLE TURBINE WATER WHEEL!

LEFFEL'S AMERICAN TURBINE HAS many advantages over all other Wheels, both Turbines and Overshot.

It has competed successfully with every variety of Wheel, and has always proved itself victorious.

This Wheel has been in use nearly Three Years in the States, and HAS NEVER MADE A FAILURE!

It is CHEAPER than an Overshot, MORE DURABLE, and will YIELD A HIGHER PER CENT. OF POWER from the same quantity of water. We have introduced five on this coast. They are not all in operation yet, but will be in a few days. The following testimonial is from an old and experienced Mill-wright, well known in this State:

WESTPORT, CLATSOP Co., OREGON,
Nov. 18th, 1864.

MESSRS. LEFFEL & MYERS—Dear Sirs: We have plenty of water now, and your DOUBLE TURBINE is in successful operation. We are satisfied that your Wheel is fully equal, if not superior to the Overshot. With the same water that the Overshot uses, we can do more work with the Turbine than with the Overshot. I have tried many Wheels which were claimed to be superior to an Overshot but yours is the first I have found. Hence we do not hesitate to recommend the American Double Turbine as the most efficient economizer of water in our knowledge.

JOHN WEST & CO.

We desire all who want Wheels to visit the following named places and have a regular demonstration of the above facts:

John West & Co., West Port, Clatsop County, Oregon;
Lewis Love, Vancouver, W. T.;
I. B. Bambing, Idaho City, I. T.;
Hampton Kelly, three miles East of Portland;
Sayre & Co., Oregon City. Address

LEFFEL & MYERS,

NEW MONTHLY MAGAZINE.

Critical Notices of the Press.

It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more enterprising friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore).

The most popular Monthly in the world.—*New York Observer.*

We must refer in terms of eulogy to the high tone and varied excellence of HARPER'S MAGAZINE—a journal with a monthly circulation of 17,000 copies—in whose pages are to be found some of the choicest light and general reading of the day. We speak of this work as an evidence of the American People; and the popularity it has acquired is merited. Each Number contains fully 144 pages of reading matter, appropriately illustrated with good wood-cuts; and it combines in itself the racy monthly and the more philosophical quarterly, blended with the best features of the daily journal. It has great power in the dissemination of a love of pure literature.—TRUBNER'S *Guide to American Literature*, London.

The volumes bound constitute of themselves a library of miscellaneous reading such as cannot be found in the same compass in any other publication that has come under our notice.—*Boston Courier.*
